

Set staffing levels Adjust work shifts Empower employees **Breathe easier**

Efficient **Advanced Scheduling** with **Shift Swapping**

stratustime[®]

When we asked what you needed to **take your time and attendance system to the next level**, the message was loud and clear.

Provide advanced features that make scheduling employees easier and more efficient.

So we did.

Introducing **Advanced Scheduling** with **Shift Swapping**

- Easily **create and customize shifts & capacities**
- Empower employees to **swap shifts with co-workers**
- View **employee availability – in real time**
- Receive **daily and weekly overtime notifications**
- Automatically **notify employees of a new or modified schedule**
- Set overtime notifications to help you **comply with new regulations**

Ready to see Advanced Scheduling in action?
Call **800.561.6366** to talk to an expert today!

Advanced Scheduling Features Help You:

- Set capacity requirements for each shift
- View and schedule a complete work week
- See real-time worker availability

Powerful Scheduling Tools Provide:

- Daily and weekly overtime warnings
- Alerts about scheduling conflicts
- Notifications for changes in availability and eligibility

Empower Your Team & Improve Communication:

- Empower employees to post shifts they'd like covered, and swap shifts with co-workers
- Fully automate shift swapping, or enable one-click manager approvals from mobile devices, tablets or PCs
- Employees set their availability from their dashboard
- Your team receives notifications for new and modified schedules
- Employees can respond to message notifications
- Show co-worker availability to employees
- Encourage employees to pick up open shifts by displaying potential earnings

Need More Flexibility?

- Apply advanced overtime rules for scheduling consecutive days, holidays, and more
- Provide an "availability/unavailability" setting at the clock and kiosk
- Show blackout days
