stratustime®

Grow your business with a new revenue stream

Become a **stratus**time® marketing partner

stratustime is a **world-class automated time & attendance system**, recognized as an industry leader with **advanced features, seamless integration, and a user friendly interface**.

Four ways to build revenue

Create a steady new source of revenue, build your competitive edge, and ensure your clients get the full support of our experienced implementation and training team.

Which partnership fits you best?

Referral Partnership

Earn revenue for connecting us with decision makers who could benefit from the **stratus**time® time & attendance system. Simply provide us with the referral information, and we pursue the lead. When your referral becomes a customer, we will send you a check.

Branded Partnership

Leverage the **stratus**time® brand with current clients who could benefit from our world-class time & attendance system, or solicit new prospects. Your sales team will be equipped with the knowledge and power to control the sales cycle with prospects. We offer our full support along the way.

Co-Branded Partnership

You've got a name that people recognize. **We've got an industry-leading time & attendance system**. That's a recipe for success — and one that can be co-branded to help you close more sales.

White Label Partnership

Your client or prospect already has brand equity and wants a seamless integration. We can do that. **Our systems talk to your systems**. Everything united neatly under one brand. Same great technology. Our in-house development team will guide you through the integration process.

Questions?

Our partnership sales team is ready to answer any questions you have and get you started on a profitable new partnership with us. Please **contact us at (800) 561-6366** or simply **complete our partnership request form at nettimesolutions.com/clients/partners**.

We look forward to working with you!

*stratustime is a **full-featured cloud-based time & attendance system**, providing businesses of any size with a secure, user-friendly solution to track employee hours, create schedules, send messages to your team, and create analytics.*
