### Grows as Your Company Grows.

Inexpensive buy-in. Advanced features available as your business grows and your labor scheduling needs become more complex.

### Plays Nice.

Can be accessed through dozens of devices so that employees can clock-in or out via mobile, a PC or web kiosk, or by calling in.

### Easy Integration.

Can share data with over 60 payroll and accounting systems. Our U.S.-based sales and support teams understand your business.

## Perfect Prospect

### Total Solution Offering

- Payroll Manager
- Head of HR
- Head of IT
- Owner/CEO/CFO
- 100+ employees
- High expected growth
- Any industry  
*(strong in manufacturing & industrial)*

### Stand-Alone Offering

- Payroll Manager
- Head of HR
- Newer company
- 50-100 employees
- Slow expected growth
- Any industry  
*(strong in manufacturing and industrial industries)*

### Common Prospect Needs

**Solid Support.** Need a reliable and easy-to-reach customer support team.

**Compatibility.** Frustrated with manual transfers between systems.

**Customization.** Desire a system that adheres to company policies and rules. Want custom reporting.

**Compliance.** Require complex tracking and reporting to help comply with state and federal regulations.

## Elevator Pitch

stratustime is an intuitive time & attendance software solution that allows employees to clock in, out, and request time off without any assistance. Behind the scenes, managers and payroll professionals get cutting-edge analytics and reports that can help them lower labor costs and comply with wage and hour requirements.
